Email: suryansh.som23@gmail.com

Mobile: +91 6391135563

SKILLS

Languages: Python, C, C++

Tools/Platforms: MySQL, Git & GitHub, Figma

Soft Skills: Quick Learner, Time Management, Consistency

PROJECTS

Electric Theft Detection System through IoT | Arduino IDE, IoT Sensors, C++

- **Built an IoT-based monitoring system** to detect unauthorized power tapping and electricity theft along distribution lines in real time.
- **Integrated current and voltage sensors** with a microcontroller to continuously compare expected vs. actual load, flagging anomalies indicating theft.
- **Implemented real-time alerting** that notifies the utility/operator instantly when a mismatch is detected, reducing detection time by an estimated ~70% compared to manual line inspection.
- **Programmed the microcontroller in C++** for continuous data sampling and threshold-based anomaly detection, achieving reliable fault/theft identification in testing.
- **Designed a low-cost, scalable hardware setup**, making the solution practical for deployment across multiple grid nodes without major infrastructure changes.

CERTIFICATES

Basics of Python Programming | Infosys Springboard

Introduction to Python | Infosys Springboard

EDUCATION

Lovely Professional University

Bachelor of Technology

Computer Science and Engineering

Phagwara, Punjab

Aug' 25 – Present

St. Xavier's High School

Intermediate

PCM; Percentage: 83%

Hardoi, Uttar Pradesh

Apr' 24 – Mar' 25
